

PAINT COLORS

Non-Standard Color Options

Metal Arc has access to many industry-standard paint colors beyond the standards shown on this color chart. These non-standard colors are typically available at no upcharge, though longer lead times may apply for large orders. For a current list of non-standard paint colors, please visit our website at www.metalarcinc.com.

Effective November 1, 2016, a number of standard paint colors were re-designated as “non-standard” due to lack of demand. All of these re-designated colors are still available and can be found in our list of non-standard offerings.
